Tequila, Mezcal & Sotol Approved for Pesach 5784

אל אחינו בני ישראל די בכל אתר ואתר

To Whom it may concern,

As in years prior, the Kashrus team of the Kehile Ashkenazi de México have done a comprehensive review of the tequila companies under KA certification to evaluate the suitability of some brands and varieties for Pesach 5784. We are therefore, once again confirming the following list of Spirits to be approved for use during Pesach.

Obviously, as with any item that may have even a remote chance of issues of Taaruvos Chametz or that may have been produced on Chametz equipment, it is preferable to purchase such items that have been made with specific Pesach oversight in place, as is mentioned by the Rama (OC 447 & 467).

The following beverages do not contain anything other than pure agave & water, and most of them use natural fermentation, otherwise they are fermented year round with KFP certified yeast. And while part of the process does use equipment shared to non KFP approved items, this has been determined not to affect the status of the approved tequilas.

It must be stressed that not all tequilas are produced in an environment & format that is suitable for Pesach consumption, and only those that are fully certified a KFP or appear on our approved list are recommended for consumption on Pesach.

With best wishes for a Chag Kasher V'Samech

שנוכה עוד השנה לאכול מן הזבחים ומן הפסחים בקדושה וטהרה
